

Jonah 1:17

“Now the Lord provided a huge fish to swallow Jonah, and Jonah was in the belly of the fish three days and three nights.”

“A world’s largest fish is the whale shark. It has been known to reach 40 feet long and may weigh up to 20 tons.

While sharks are carnivorous and have huge mouths, they are often unlikely to ‘nibble’ on a swimmer. Sharks can filter large amounts of Plankton through their big mouths when they are swimming toward the water’s surface.”

www.livescience.com

It is believed that some sharks may have terrible eyesight. The Exact type of big fish which Jonah Encountered is “unknown.”

“For as Jonah was in the belly of the fish for three days and nights so shall the son of man be three days and three nights in the heart of the earth.”
